

RULES TO LIVE BY

Children and mowers don't mix. Children should remain inside and under adult supervision while the riding lawn mower is being used.

Tips for safe mowing

Read the operator's manual

Do not let children ride on the machine, on any attachment, or cart/trailer. Keep children inside and under the supervision of a responsible adult.

Do not mow in reverse. Look down and behind while backing.

Stay clear of embankments or drop offs where a machine could slip or tip.

Prevent fires. Keep the machine free of debris during and after each use.

Prevent entanglements. Make sure shields and guards are in place and safety devices are working properly.

Shut off the engine, ensure blades are stopped, and disconnect the battery before servicing.

Dress for success. Wear appropriate personal protective gear and clothes.
